

FDS Code Quality Assurance Record

Cover Sheet

Complete one cover sheet per PR requiring live QA. Attach `qa_sup.pdf` sheets as needed. See the forms README for full completion rules.

1. Complete by hand in ink, without AI assistance, in English, Japanese, Traditional Chinese, or Simplified Chinese.
2. Record every applicable value. Use N/A with a reason only when a field cannot apply; write the accurate value if no choice applies.
3. The assigned questioner conducts QA live and completes this record. The PR author answers without AI assistance and must not complete it.
4. The questioner keeps the original for four months after merge. During the first three months, the Project Maintainer may request delivery; the project shall pay all fees incurred by delivery. Failure to produce it may trigger governance review.

I. Pull request details

Project:	_____	Repository:	_____
PR number:	_____	Target branch:	_____
PR author:	_____	Questioner:	_____
Families:	_____	Components:	_____
Date:	_____	Supplementary pages:	_____

II. Review conditions

Mark every statement that applies.

- ☐ The questioner is assigned under POLICY.md and project GOVERNANCE.md.
- ☐ The questioner did not author the work being reviewed.
- ☐ The change introduces or alters a public module, type, trait, function, or other stable API.
- ☐ The PR author's completed Update Report has been received.

Applicable AI tier(s): ☐ Forbidden ☐ Author-Owned ☐ Human-Led ☐ Co-Authored

III. Declaration

Questioner declaration. I conducted this QA live with the PR author on a real-time meeting platform. I reviewed and understand the work covered by this record. The PR author answered every question live without AI assistance and did not complete this document. I completed this record by hand in ink without AI assistance.

Questioner signature: _____ **Date:** _____
