

FDS Code Quality Assurance Record

Cover Sheet

Complete both pages of this record for each review round using Live QA or Trivial Update direct approval. For Live QA, attach at least one `qa_sup.pdf` sheet, with additional sheets as needed. See the forms README for full completion rules.

1. Complete by hand in ink, without AI assistance, in English, Japanese, Traditional Chinese, or Simplified Chinese.
2. Record every applicable value. Use N/A with a reason only when a field cannot apply; write the accurate value if no choice applies.
3. The assigned reviewer completes both pages. For Live QA, the PR author answers without AI assistance and must not complete the record.
4. Complete page 2 and every attached question sheet before signing the declaration on this cover sheet.
5. The reviewer keeps the original for four months after merge or closure. During the first three months, the Project Maintainer may request delivery; the project shall pay all fees incurred by delivery. Failure to produce it may trigger governance review.

I. Pull request details

Project:	_____	Repository:	_____
PR number:	_____	Target branch:	_____
PR author:	_____	Reviewer:	_____
Families:	_____	Components:	_____
Record date:	_____	Supplementary pages:	_____

II. Reviewer details

Reviewer role: ☐ Component Maintainer
☐ Family Maintainer ☐ Project Maintainer

Co-reviewer: _____

III. Declaration

Reviewer declaration. I was assigned under `POLICY.md` and `GOVERNANCE.md`, did not author the reviewed work, and independently reviewed the complete PR, applicable validation, and every required or submitted Update Report. I understand the work covered here. For Live QA, I conducted the recorded real-time session; the PR author answered without AI assistance and did not complete this record. I completed page 2 and every attached question sheet before signing. I completed this record by hand in ink without AI assistance and certify that every entry, selection, and reason is accurate.

Reviewer signature: _____ **Date:** _____

Repository: _____ PR number: _____

Select one QA type. Complete only the selected row; leave the other row blank.

QA type	Details and result
☐ Live QA	I conducted Live QA with the PR author on a real-time meeting platform. Date: _____ Time (TZ): _____ Overall understanding demonstrated by the PR author: ☐ Sufficient ☐ Partial ☐ Insufficient Final decision: ☐ Approve ☐ Further QA required ☐ Do not approve; close PR Decision reason _____ _____ _____ Required follow-up: ☐ No ☐ Yes. Required changes are: _____ _____ _____ _____ _____ _____
☐ Trivial Update Live QA not required	Direct approval I confirm that the entire PR consists exclusively of one or more of these eligible cases: 1. Typo or editorial fixes. 2. Test-only additions or corrections. 3. Non-normative documentation corrections. It does not alter program semantics or an existing contract and satisfies POLICY.md. Basis for classification _____ _____
